Implementation and review procedure

We have one set of policies and procedures which are consistent across our provision and in line with the current EYFS requirements.

- Policies and procedures are written and reviewed annually.

- Changes are only made to the policies and procedures by the committee in liaison with the setting manager where risk assessment or other reasons indicate that this is required.

- Policies and procedures are risk assessed and reviewed following any incident that is reportable under RIDDOR.

- Disciplinary action may be taken where individuals have disregarded policies and procedures.

Familiarisation and implementation

- It is the responsibility of every member of staff, volunteer and student within the setting to adhere to and always implement the policies and procedures.

- The setting manager offers advice and support to staff regarding procedure implementation.

- An overview of policies and procedures is included in induction for individual members of staff, with specific emphasis given to safeguarding procedures.

- Members of staff must sign to say that they are aware of and will adhere to the current policies and procedures.

- Members of staff understand that they must refer to the procedures as they support all aspects of their work within the setting.

- Staff meetings and in-house training events are used as opportunities to focus on procedures as required, and to discuss their implementation.

- Where there is an outbreak of a communicable disease or infection, the relevant procedure is photocopied and displayed for parents' reference during the outbreak.

- Other procedures may be displayed where a situation arises, for example to highlight health and safety concerns such as closing the gate.

- Following implementation of a procedure, such as emergency evacuation or other health and safety procedures, the setting manager will conduct a review as follows:

  - did all members of staff follow the procedure?

  - is further training required on any aspect of implementation?

  - did the procedure fit the circumstance; does it need adapting or changing?
